This "Nightmare Game" is confusing right? Here's the gist of it:
Each person starts out with 50 Million Yen (Around $450,000). If one loses it will be divided equally between the participants.
In this case, if one dies, each person gets a bonus 5.55 Million Yen (that's how it's written as well, so it can be an endless 5555555)
The last bit is saying to get the full 100 Million Yen, 5 people have to die and 5 people have to survive. More on the next page.

There's a condition though... If over half of you die
It's game over!
